

Requirements

Erssa has been built on Linux servers and has some basic requirements as listed below. Most professional hosting companies provide servers that meet these requirements.

- Linux Operating system
- Apache web server
- Apache mod_rewrite
- .htaccess
- MySQL 4.1 or above
- PHP 4.3.x or 4.4.x or 5.1.x or above
- PHP built as an Apache module not as a CGI
- A modern web browser FireFox 2 or IE7
